Teaching profile

TESOL-certified English teacher and native British English (RP) speaker, with experience in Russia, Latvia and India. I teach adults and young learners, including English for work and study. My **AI-focused lessons** develop clear prompt writing, critical review of AI answers, and better drafts in the learner's own voice. I also bring Arduino robotics workshop experience.

TESOL: Teaching English to Speakers of Other Languages.
Awarded by Alternoid Academy.

B1-C1 groups

Intermediate to advanced English

AI and prompt writing

Clear prompts and critical review

Children and teenagers

Camp learners aged 6-17

Robotics workshops

8 Arduino workshops | Ages 8-17

Teaching experience

Windsor English Language School

English Instructor | Saint Petersburg, Russia | March 2022 - February 2024

Taught B1, B2 and C1 groups, alongside English for work and study. Combined grammar and vocabulary work with speaking, listening and discussion.

English in Action and British Book Centre

Speaking clubs | Saint Petersburg, Russia | 2019 - 2023

Led online and in-person discussions on culture, music, travel, education, technology and social issues. Used shared topics to build vocabulary and help learners express and exchange ideas.

Private English teaching

Latvia, India and Russia

Private tuition in Latvia and India. Also taught individual and group lessons in Russia, online and in person, with practice suited to learners' needs.

Teaching approach

01 Explain

Clear steps and examples

02 Practise

Guided language activities

03 Use

Real conversations and tasks

Robotics, camps and education

Featured experience: robotics

Arduino robotics workshops | Studio 787

8 workshops

Helped organise

Ages 8-17

Children and teenagers

2024

Studio 787

Helped organise eight workshops on Arduino-based autonomous robots. This experience strengthened my ability to explain technical ideas clearly and support young learners.

Children and teenagers

Varnavskii Camp

September 2024 - May 2025 | Learners aged 8-17

Taught across five weekend camps and one winter camp. Lessons covered conversation, grammar, vocabulary and correct usage, with preparation for drama performances in English.

English City camps

November 2020, March 2021 and May-June 2022 | Kirochnoye and Pioneer

Led daily lessons and activities in reading, writing, speaking and listening. Creative activities included a music-video project and introductions to writing for blogs and video blogs in English.

MESTO. VALDAY

July 2021 | Five-day workshop for young learners

Led daily English activities focused on conversation, vocabulary, listening and writing. Helped children practise speaking in a supportive setting.

English through practical activities

English cooking session for QuadCode

2023 | Multinational group of 30 adult professionals

Led a live Anglo-Indian cooking session in English for participants in and outside Russia.

Education

Doctoral studies, Physical and Mathematical Sciences | ITMO University

2023-present; ongoing. Research focus: optoelectronics and photonics.

MSc, Electronics and Nanoelectronics | LETI | 2019-2021

Graduated with Honours; GPA 4.92/5.00.

BTech, Electronics and Communications Engineering

Guru Nanak Institute of Technology | 2012-2016.
